

## macmon secure shortlisted as finalists in 2018 Security Awards

Wokingham, Berkshire macmon secure, the technology leader for Network Security are excited to announce that they have been shortlisted as finalists in the 2018 Computing Security Awards.

macmon UK have been chosen as finalists in the category of 'Best Network Security Solution of the year' along with 9 other vendors in the field. Back in 2015, macmon proudly won the award for 'The best Network Access Control solution' of the year and are excited to be nominated again this year.

2018 brings the 9th Computing Security Awards which have taken place at various locations around the UK for the past 9 years. This year the location for the awards ceremony will be held at the Radisson Blu Edwardian hotel in London. It highlights excellence in the world of IT Security and honours the very best of them for their efforts and achievements in the IT industry. There is some tough competition from vendors known around the world, striving for their product to be crowned the winner.

All category winners will be announced at the awards ceremony that will take place on the evening of Thursday 11th October 2018. macmon UK Country Manager Robert Billington will be attending to represent the UK team after macmon's most successful year yet.

### About macmon:

The company is manufacturer of an independent and modular NAC solution who protects the network against unauthorised and unsecured devices, as well as internal attacks. Customers benefit from macmon's security know-how, predictable costs and an increased level of security, gained from determining exactly which devices are allowed on which segments of a network. The software features ease of use, integration with other leading security products, and ongoing development to keep it in line with the latest standards. The customer base includes international companies of various branches and sizes.

The headquarters of macmon secure GmbH are located in Berlin, Germany.

macmon secure is a member of the Trusted Computing Group and actively participates in various research projects.
